live in peace?

V2.

The world 's a place for us to live in peace, in peace
 Learning to live with trust and hope in peace, in peace
 Can we light the flame within us and make the darkness disappear?
 Whether it be foe or kin, reach out to the hand that's near.

We've left it to the powers, they've not been successful yet
 Do they believe that it could never be?
 We all know that it could.

From country on to country
 From adult on to child
 The children can teach us how to trust
 Can we stop and listen now?

Learning to live with open hearts
 Could we all live in peace?
